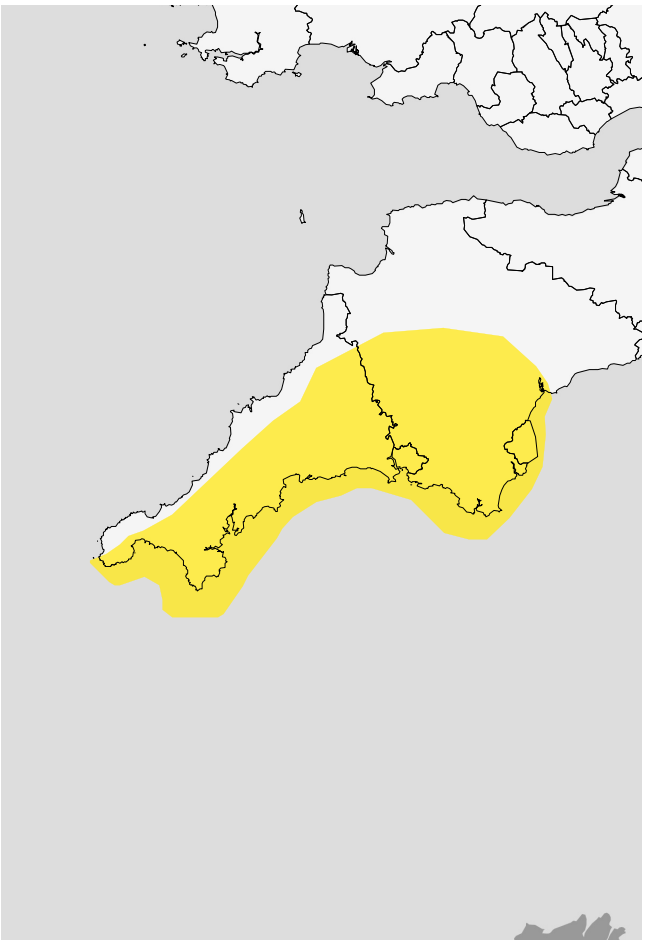
Yellow warning
Thunderstorm

Between
13:00 Fri 12 Jul 2024 and
21:00 Fri 12 Jul 2024



Slow moving thunderstorms and torrential downpours may bring disruption to travel and infrastructure

What to expect

- There is a small chance that homes and businesses could be flooded quickly, with damage to some buildings from floodwater, lightning strikes, hail or strong winds
- There is a small chance of fast flowing or deep floodwater causing danger to life
- Where flooding or lightning strikes occur, there is a chance of delays and some cancellations to train and bus services
- Spray and sudden flooding could lead to difficult driving conditions and some road closures
- There is a small chance that some communities become cut off by flooded roads
- There is a slight chance that power cuts could occur and other services to some homes and businesses could be lost

Yellow warning
Thunderstorm

Between
13:00 Fri 12 Jul 2024 and
21:00 Fri 12 Jul 2024

Further details

While many places will see only small amounts of rain or remain dry, scattered showers are likely to become slow-moving and heavy from early this afternoon. Some torrential downpours are possible, bringing the risk of 15-30 mm of rain in an hour, and as much as 40-60 mm in several hours for a few sites in the warning area. Hail and lightning may be additional hazards.

Showers should slowly ease during the evening.

What should I do?

Consider if your location is at risk of flash flooding. If so, consider preparing a flood plan and an emergency flood kit.

Prepare to protect your property and people from injury. Before gusty winds arrive, check to ensure moveable objects or temporary structures are well secured. Items include; bins, garden furniture, trampolines, tents, gazebos, sheds, and fences.

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

People cope better with power cuts when they have prepared for them in advance. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

If you find yourself outside and hear thunder, protect yourself by finding a safe enclosed shelter (such as a car). Do not shelter under or near trees, or other structures which may be struck by lightning. If you are on an elevated area move to lower ground.

Very low likelihood of medium impacts
